Ideal environmental features

Particular attention was paid to the processing of sustainable raw materials during construction.

Our glamping resort will more than inspire you

Comfortable, cosy, natural and modern.

We are looking forward to your visit!

Our glamping resort is located where the Saarland is at its most beautiful. Having a holiday in one of the most beautiful regions of Germany - the UNESCO Bliesgau Biosphere - is a special pleasure. Germany's best hiking trails and well-developed cycle paths pass through a special culinary region in the border triangle. Integrated into the Saarland Therme resort (thermal spa), there is a lot to experience here with the Saarland Card, such as a free visit to the Saarland Therme, or to the Motivitas fitness studio. Just next door, you will find a year-round skating rink, an adventure golf course, a Bliesgau barn selling regional products and much more.

The glamping resort app

To make your stay at our glamping resort even more pleasant, we recommend our glamping resort app. The app is available for free download. It offers you a lot of helpful information and many functions to make your holiday planning easier. You can get the app for mobile devices from Apple (iPhone, iPad) or for devices with an Android operating system. To download the app to your device, visit our homepage at www.glamping-resorts.de. There you will find the link to the respective app store.

The glamping resort offers 4 categories

In our resort, we have created different garden areas and categories that are typical of our landscape. You will feel snug and safe in the organically shaped natural hotel rooms in the categories Woodland Garden, Sun Garden, Vineyard or Orchard. Each area has its own charm. Discover your favourite category and your favourite place!

The glamping accommodation unit

Innovation and luxury are only two synonyms for our spacious and comfortable glamping apartments. Glamorous camping in the truest sense. Depending on the model, our glamping units offer comfortable places to sleep for up to 3 people with the comfort you would expect from a boutique hotel room - this same level of luxury also applies to Villeroy & Boch's integrated bathrooms with shower, washbasin and ceramic WC. These revolutionary 'natural hotel rooms' really set new standards in terms of comfort and a feel-good atmosphere. Here you feel at home in the middle of nature.

The woodland garden

The Saarland is one of the most densely wooded areas in Germany. Nestled cosily in a woodland area, you experience the power of the trees in our state. In addition to the luxury glamping units, you will also find two units for 3 guests each - ideal for pilgrims who want to stay next to the adjacent Way of St. James.

The sun garden

From a high plateau, you look directly into the land of the Sun King, to France. On your own sun terrace, you experience the unique panoramic view of our neighbours and of the upper Saar Valley. Whether in summer or winter, you can always keep an overview and let your mind wander.

The vineyard

In former times, the Bliesgau was a large contiguous wine-growing area until vine pest sealed its fate in the last century. As a tribute to this time, we have created a pretty vineyard and serve a real biosphere wine from the Bliesgau - just sit back and enjoy!

The orchard

After all the vineyards had disappeared at the beginning of the 20th century, the orchard meadows were established in their place. To this day, they are still the most important part of the protected UNESCO Bliesgau Biosphere. Sleep under your own apple tree in our biosphere garden!
